

Three Pictures Switch Freely

Connect three input devices simultaneously to share on one display and switch screens freely

Connection Diagram

widely used in various
types of devices with HDMI interface

Audio Separation

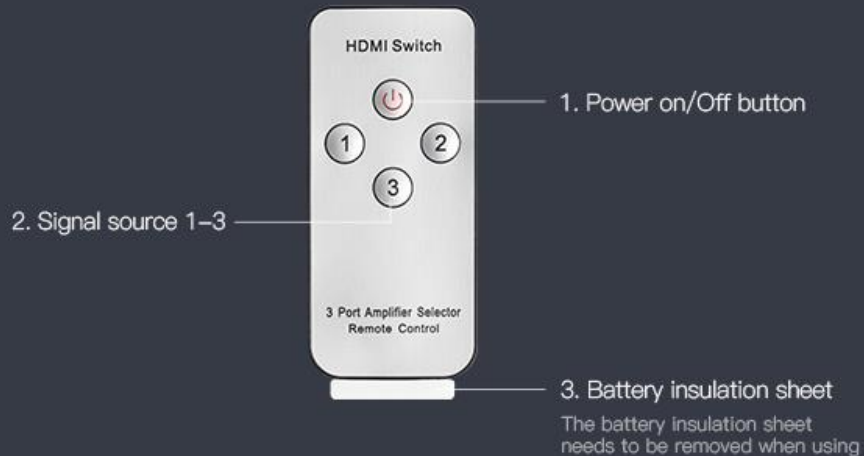

With audio separation, fiber optic and 3.5mm audio port, can be connected to acoustics and headphones

Note: In ARC mode, only optical audio output is supported, 3.5mm audio has no output, needs TV with ARC function.

Button/Remote Double Switching Mode

You can switch freely with the remote control or manual button.
Remote control built-in infrared device, without blocking in 8m distance

4K HD 3D Visual Effect

HDMI 1.4

Support 4K resolution compatible with 1080P/720P/576P/480P resolution
3D motion processing makes picture clear and realistic

Light and Compact

Palm-sized, exquisite and compact, one hand can hold

Stable Transmission

Equipped with DC 5V/1A power supply to solve the problem of incompatible and insufficient power supply for multi-device connection, ensuring stable data transmission
