

2.5mm to 3RCA Audio and Video Cable

Standard Xiaomi box to TV

The Old TV Turned Into a Smart TV

Audio and Video Synchronization, Large Screen Is More Exciting

Identify The Connection Interface

Insert the 2.5mm plug into the Xiaomi box, and insert the three plugs (red, white, and yellow) into the corresponding color slots of the TV

Multipurpose

Connect the 2.5mm plug to mobile phones and other devices, and the red and white RCA plugs to the red and white interfaces of the audio devices (yellow plug is used to transmit video signals), which can be used as a speaker cable.
