FAQ

Q Type-C to HDMI, the display device has no sound, what should I do?

A: If the connected display device (television) itself can sound, then only need to set the audio as HDMI audio output; if the connected display device (display, projector) itself can not sound, then you need to use the audio cable to connect the speaker.

Q What are the compatible devices?

A: Applicable to Apple MacBook, Huawei MateBook, Xiaomi laptop and Huawei Mate20, P20, Samsung S9, S10 series mobile phones. Refer to the details page for specific details.
